Wireless projector

Presentation Computer   TCP/IP-Network   Projecting Computer   Projector
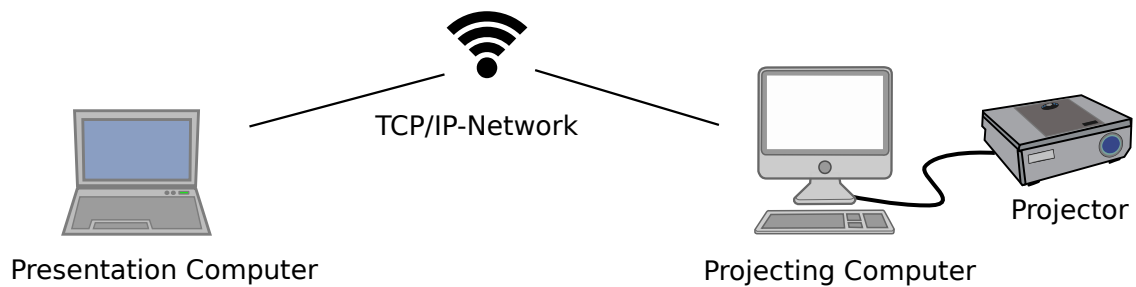

1 Overwiew

TODO

2 Comparision between VNC and ffmpeg

Either VNC or ffmpeg is used for streaming.

TODO.

3 Choosing a good screen-resolution

There are three screen-resolutions to deal with:

- The screen-resolution of the presentation-computer
- The resolution of the video-stream
- The resolution of the projecting-computer

TODO: tradeoff bandwidth vs. Latency and quality

TODO: how to choose which resolution

4 Installation of the VNC-Server-software

TODO

4.1 Installation on Linux

TODO

4.2 Installtion on Mac-OS

TODO

4.3 Installation on Windows

TODO

5 Installation of ffmpeg

TODO

5.1 Installation on Linux

TODO

5.2 Installtion on Mac-OS

TODO

5.3 Installation on Windows
